Recommendation, Adrián Casado

I am writing to wholeheartedly recommend Adrián Casado for his exemplary work as a software developer intern at vocational school Mercantec, Denmark. During his 8-week tenure, Adrián demonstrated a remarkable combination of technical proficiency, creativity, and dedication that greatly contributed to our organization's success.

From day one, Adrián exhibited a strong grasp of software development principles and quickly embraced our organization and standards. His team created [3dprintarchive.socdata.dk](https://3dprintarchive.socdata.dk), and Adrián showed great dedication for the entire project, with a deep understanding of the purpose of the project, for planning the work and for keeping deadlines.

Adrián is a great team player and contributed to a collaborative and productive work environment. His positive attitude and excellent communication skills make him a pleasure to work with. His team made several improvements to the project during their work, and only asked for approval for their ideas, and otherwise were completely autonomous.

In summary, Adrián possesses all the qualities that make a successful software developer. He is innovative, diligent, and passionate about his work. I have no doubt that he will excel in any future endeavors and make a significant impact wherever he goes.

I highly recommend Adrián for any position or opportunity he may pursue. He has my full support and confidence.

Sincerely,

**Bjarne Rasmussen**
